

SAFETY MINDED. FORWARD THINKING. [SAFEALLPRODUCTS.COM](https://www.safeallproducts.com)

## Create Order During Chaos with the **Traffic Commander** from SafeAll.

The Traffic Commander is an enhanced, truck-mounted light bar offering **three options to control and direct traffic** at any accident scene or roadside recovery. Variable messages, scrolling arrows and flashing lights all work together to **create a safe space for tow operators and highway services personnel**.

## Control at your fingertips with this **3-in-1 technology**.

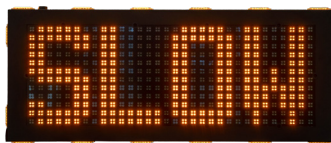

The Traffic Commander can be operated through a **hard-wired Sign Dial** mounted inside the cab of a truck or **wirelessly through a paired mobile device, like a smartphone or tablet**. Both control the functions listed below.

### A Light Bar.

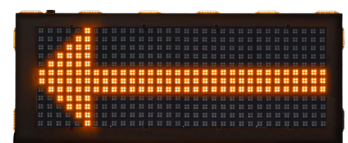

16 LED lights illuminate the perimeter of the sign and two additional lights are mounted on the forward-facing side of the unit to warn oncoming traffic.

### A Message Sign.

Select pre-loaded commands from the sign's library or create your own set of site-specific messages.

### An Arrow Stick.

Choose from arrows or chevrons to divert traffic away from your roadside work zone and alert drivers to upcoming lane closures.

# Message Board Features.

## Legibility.

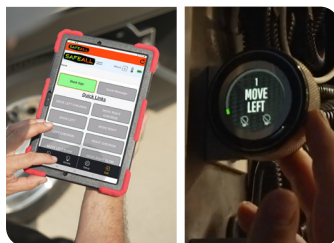

18" block letters meet MUTCD requirements.

## Visibility.

Optic eye automatically adjusts for brightness.

## Convenience.

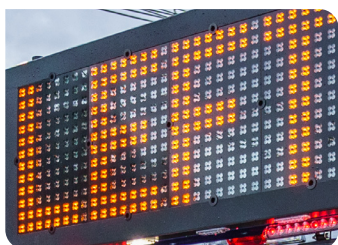

Use wirelessly with tablet or pair with Sign Dial for patent-pending performance.

## Speed.

Powered actuator lifts sign in less than three seconds.

## Longevity.

No polycarbonate shell to cause fogging and discoloration.

## Clarity.

Amber letters and contrast black backdrop create long-range clarity.

## Durability.

Patented and ventilated 8x12-pixel LED bricks dissipate heat.

## Weatherproof.

Aluminum frame and sealed LED bricks hold up to rain, sleet and snow.

## Why Buy a SafeAll Traffic Commander?

- **Effectively informs** the motoring public what to do with 1,000 feet of legibility.
- **Increases safety** and improves traffic flow.
- **No need for a dedicated sign vehicle** as any pickup truck can be equipped while still utilizing 100% of the box storage!
- **Adapt to any work zone situation** quickly and safely by selecting from 23 Quick Link messages.
- **A great on-demand tool** to utilize while exiting or entering highway traffic with equipment or trucks.

Mounts to all wreckers, carriers and service bodies through the pylon or stand-alone racks and brackets.
